

- The God's aspects share the same powersource but cycle/take turns
- the plutonium is a fragment of a God (a hotdog foreskin)
- The collective uses the device to wake a single God in a pocket.
- Forest springs up very quickly, but not overnight. The Awake god is pissed off.
- Collective quickly begins mobilizing: pillaging the forest from protected areas. Some go rogue. One woman goes into labor in the cell. That's where Adam is born. Eventually brought under control.
- Bases set up inside and outside city. Mostly outside.
- A glyph survived the disruption, becoming psychopathic. Made several magical advancements. Discovered a secret to long life he never shared. Completed ampule designs quickly. As
- Born as the disruption happened. Slowly descended into psychopathy. Supergenius status.
- The kind of person that would have a normal conversation while dissecting you.
